

Experience the ease of the DDX 9161!

Lab optimized

High integration

and processing power

A single box

to test distribution transformers

Strong

steel case

Up to 4x built-in

1 A_{rms}

measuring impedances

100% free frequency range selection

HAEFELY's universal SW platform

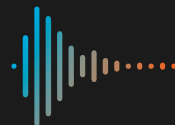

2.5 kHz @ 50 MHz

Extra-fine Scope & FFT resolution

0.01 pC

Ultra-high sensitivity

Low-noise AC supply

Versatile user-interface

Up to 12 channels

Multiple PRPD color palletes
